

sgapiPipeMatrixRows(%%questionID, %%rows)

Last Modified on 03/14/2016 1:29 pm EDT

This function pipes the given rows into the given Custom Table question. You can specify a static value or pull selected values from a previous question.

Example

The below example pipes the given rows in the array into the given Custom Table question.

```
%%staticvalue = 'Static Value'; // Static Value
%%radiobutton = sgapiGetValue(10); //Answer from Radio Button
%%rbgrow1 = sgapiGetValue(12); //Answer for Radio Button Grid Row 1
%%rbgrow2 = sgapiGetValue(13); //Answer for Radio Button Grid Row 2

sgapiPipeMatrixRows(6, array(%%staticvalue, %%radiobutton, %%rbgrow1,
%%rbgrow2)); //set values for row
```
