

sgapiResponseReset()

Last Modified on 08/06/2014 1:22 pm EDT

This function clears all data from the current response.

Example

This function can be used to clear the current response (using `sgapiResponseReset`) and begin again (using `sgapiJumpToPage`).

[Check it out in an Example Survey](#)

```
%%doover = sgapiGetValue(7);  
  
if (%%doover == "Yes")  
{  
    sgapiResponseReset();  
  
    sgapiJumpToPage(1);  
}
```
